

Attention Juniors. The senior project schedule is now posted. At current time, that is your expected date but due to the pandemic everything is subject to change. We ask that you make every attempt to complete as much of the project you can while obeying CDC guidelines of social distancing and mask wearing. If you cannot complete your hours do not worry, we can work something out in the fall as long as you document that you have tried everything possible to complete hours. Examples of acceptable and unacceptable documentation is as follows.

Unacceptable: "I wanted to volunteer at Julia Rubado Senior Center, but they wouldn't let me because of Covid"

Acceptable: "I spoke to Morgan from Julia Rubado on 5/27 and she told me they aren't taking volunteers till later. I called back on 7/8 and was told by her that I could not help. I asked about doing crafts with them through zoom and she said she didn't think that would work but I could make craft kits for them. I made craft kits for them on 7/18 and donated them on 7/19 and got 8 hours, but I haven't been able to do more than that".

Unacceptable: "I wanted to shadow a hairdresser but couldn't because she wasn't opening."

Acceptable: "I spoke to Maria from Stupendous Styles on 6/14 and she was unfortunately not opening. I then scheduled an interview with her over the phone and completed 2 hrs that way on 6/18. We met through google meet on 7/13 and she showed me how she does her payroll and taxes. She also showed me her advertising budget and her two most successful ads and I got 3 hrs there. We also met through google meet on 7/18 when she was cutting her sister's hair to show me some techniques and I got 2 more hours there. Unfortunately, that was all I was able to do."

Bottom line is we need you to show that you tried to attain hours and weren't blowing this off. We are willing to work with you if you were willing to try to do work. We need more from you than just "I couldn't do it." The more detailed you are, the better. Nobody should go to the committee in the fall with nothing. Please have documentation.
