Juniors/Seniors: ASVAB Testing Scheduled November 3, 2016

Interested Juniors and Seniors can sign up now in the guidance office to take the ASVAB Test on November 4th.

What is the ASVAB?

The ASVAB is a nationally- normed multi-aptitude test battery developed and maintained by the Department of Defense. Over half of all high schools nationwide participate in ASVAB testing. The ASVAB consists of the following eight individual tests:

- Word Knowledge
- Paragraph Comprehension
- Mathematics Knowledge
- Arithmetic Reasoning
- General Science
- Mechanical Comprehension
- Electronics Information
- Auto and Shop Information

Students are provided with scores on each of these individual tests and three Career Exploration Score composites: Verbal Skills, Math Skills, and Science and Technical Skills.

What is the ASVAB Career Exploration Program?

The ASVAB Career Exploration Program is a tool to help students identify and explore potentially satisfying occupations and to develop effective strategies to realize their career goals. In addition, students learn career exploration and planning skills and decision-making skills that will last them a lifetime. The program provides students with: *Exploring Careers: The ASVAB Career Exploration Guide*, which includes a self-scoring interest inventory and the OCCU-FIND. The interest inventory provides students with interest codes that they can use to identify potentially satisfying occupations. The OCCU-FIND organizes and presents relevant information about occupations of interest to help students identify tentative career choices. A Web site with an automated OCCU-FIND linked to occupational information for approximately 500 civilian and military occupations. The Web site also provides students with downloadable exercises that will guide their career exploration and planning. For example, a Coursework Planner helps students evaluate the appropriateness of their current high school program of

study, determine what they need to do to graduate, and enhance their career-related skills while still in high school. This program helps students whether they are planning on immediate post-high school employment or going on for additional training or education. For more information, visit www.asvabprogram.com or contact your high school counselor.

Applying for Civil Service Jobs

The following steps describe the basic process required to apply for civil service employment.

Review the General Job Opportunities section the PA State Civil Service Commission www.ssc.state.pa.us website. This listing is updated daily and lists test announcements of jobs that are open for application and deadline dates for submitting an application.

Complete a civil service application for employment www.ssc.state.pa.us for each test announcement for which you are interested. The test announcement may specify what other documents to submit with the application (e.g. college transcripts, application supplements, etc.).

After applying online for some job titles, you will be automatically directed to select a date, time and location to take your civil service test. For other job titles, you will be notified, when you can select a date, time and location for testing. If you complete a paper application, you will be notified by letter of your scheduled date, time, and location for testing. If the test consists of a rating of your training and experience, your test score will be based on the information you provide on your application and supplement if required.

The Commission will send you the results of your examination or rating. If you meet the minimum requirements and pass the test, your name is placed on the list of eligible candidates (eligible list) for that job title according to your score. Positions in the merit system are filled from this pool of eligible candidates.

When a job vacancy occurs, the hiring agency requests an eligible list from which to interview for that job title. Hiring is normally done from the highest ranking candidates on an eligible list. If you are ranked high enough on the eligible list, you will be contacted to report for a job interview

If you are interviewed and not selected for the position, your name remains on the eligible list to be considered for future vacancies for a specified period of time. Your standing on the eligible list may change as more persons are tested and added, and as appointments are made. If you are selected for the position, the agency will notify you and establish a start date.

College Applications

What is early action? Early action is the early admission program in which applying early will get you an early answer. This program usually asks students to apply by November 1 and the college responds with a decision by mid-December. However, you are not required to make your decision until the regular May reply date, giving you time to compare financial aid packages between colleges. Early action is non-binding, which means you do not have to attend the college if you are accepted. The advantage of the early action program is that you find out whether you are accepted sooner rather than later, giving you time to enjoy the last few months of your senior year without having to worry about being accepted into college.

What is early decision? Early decision is similar to early action in that you can apply early (usually by November 1) and get an early answer from your college about acceptance (usually around mid-December). However, with early decision, there is a catch. Early decision plans are binding. This means that if you apply to a college via the early decision process, you must attend that college if accepted and offered an adequate financial aid package. Thus, you can only apply to **one** early decision school. You can, however, apply to other colleges under regular admission. If you are accepted by your early decision college, then you must withdraw all other applications. Keep in mind that early decision may not be your best option if you want to compare financial aid packages between colleges. Early decision colleges usually offer students a better chance of admission if they apply early. When you research schools with the early decision option, check out the acceptance rates for students who apply early decision versus regular admission. The early decision acceptance rates are usually higher.

Have you heard of 4 or more?

Have you heard about [4 or More™](#)? It's a College Board initiative designed to inspire, assist, and reward you as you encourage all students to apply to at least four colleges.

Over 5,000 of your counseling colleagues nationwide have already joined the movement and are benefiting from the tools and resources they've received.

Why should students apply to four or more colleges?

Studies show that students who apply to two colleges, rather than just one, are 40 percent more likely to enroll in college, and applying to four colleges increases the likelihood that the college they choose will be a good fit for them — academically, socially, and financially.

Most support groups run on an eight-week cycle and are offered during the school day. Trained faculty and community agency personnel are available to facilitate the groups. One group is the Drug and Alcohol Insight Group which offers students an opportunity to get information you may not have and to talk about drugs and alcohol in a confidential setting. This is not for students who are already dependent, although there is certainly help for those who are interested in stopping their use and we encourage you to talk to us if you are interested in getting that help. Another group is the Concerned Persons Group for students concerned about or affected by the chemical dependency of family members. For detailed information, please call the guidance office and speak to a guidance counselor (800-321-9973).
