College Applications

What is Early Action? Early action is the early admission program in which applying early will get you an early answer. This program usually asks students to apply by November 1 and the college responds with a decision by mid-December. However, you are not required to make your decision until the regular May reply date, giving you time to compare financial aid packages between colleges. Early action is non-binding, which means you do not have to attend the college if you are accepted. The advantage of the early action program is that you find out whether you are accepted sooner rather than later, giving you time to enjoy the last few months of your senior year without having to worry about being accepted into college.

What is Early Decision? Early decision is similar to early action in that you can apply early (usually by November 1) and get an early answer from your college about acceptance (usually around mid-December). However, with early decision, there is a catch. Early decision plans are binding. This means that if you apply to a college via the early decision process, you must attend that college if accepted and offered an adequate financial aid package. Thus, you can only apply to **one** early decision school. You can, however, apply to other colleges under regular admission. If you are accepted by your early decision college, then you must withdraw all other applications. Keep in mind that early decision may not be your best option if you want to compare financial aid packages between colleges. Early decision colleges usually offer students a better chance of admission if they apply early. When you research schools with the early decision option, check out the acceptance rates for students who apply early decision versus regular admission. The early decision acceptance rates are usually higher.

Have you heard of 4 or more?

Have you heard about [4 or More™](#)? It is a College Board initiative designed to inspire, assist, and reward you as you encourage all students to apply to at least four colleges.

Over 5,000 of your counseling colleagues nationwide have already joined the movement and are benefiting from the tools and resources they have received.

Why should students apply to four or more colleges?

Studies show that students who apply to two colleges, rather than just one, are 40 percent more likely to enroll in college, and applying to four colleges increases the likelihood that the college they choose will be a good fit for them — academically, socially, and financially.

With students struggling to afford a degree, now is the crucial time to engage families and educate individuals about the variety of options to help them achieve the degree they aspire for. Our team at **AffordableColleges.com** recognized this need and curated a series of resources that delve into saving for college, financial aid and free tools, which can be of use to individuals seeking financial assistance for school. High School Support Groups

Western Wayne High School's Student Assistance Program is again offering support groups in the following areas: GRIEF, DIVORCE, ALCOHOL & DRUG EDUCATION, SELF ESTEEM, TOBACCO CESSATION, HEALTHY RELATIONSHIPS, STUDY SKILLS, and ANGER MANAGEMENT. Most support groups run on an eight-week cycle and are offered during the school day. Trained faculty and community agency personnel are available to facilitate the groups. One group is the Drug and Alcohol Insight Group, which offers students an opportunity to get information you may not have and to talk about drugs and alcohol in a confidential setting. This is not for students who are already dependent, although there is certainly help for those who are interested in stopping their use and we encourage you to talk to us if you are interested in getting that help. Another group is the Concerned Persons Group for students concerned about or affected by the chemical dependency of family members. For detailed information, please call the guidance office and speak to a guidance counselor (800-321-9973).
